STEPHEN F. AUSTIN STATE TEACHERS COLLEGE
NACOGDOCHES, TEXAS

When in the coming days which
are inevitable,
Your hearts shall long in vain
for faded youth,
Shall hold enshrined dear thoughts
of friends inseparable
Who walked with you and sought
the paths of truth;

When your quick, buoyant steps
no more shall echo
In halls from which your friends
long since have gone,
And on your brow the years
have left a furrow—
A sign, triumphant,—
of great battles won;

If then, your palsied hand
this book should open
And flooding memories
count the hours spent—
Cement these friendships
time alone has broken
Dear friends, our hearts
will be content.

—THE STAFF.

Foreword

As the Nation treasures the Events of its Youth, so we treasure these Events of our Youth that the Memories of the Future may be made more vivid by this Record of the Past. Within this Book are tucked pages from Life—Mirroring happy associations and worthwhile activities of your College days.

As the college has grown, so has the STONE FORT expanded to provide you with a valued record—Record of eventful years.

—THE EDITOR.

Dedication

To the undaunted spirit of our Texas forefather,
Stephen F. Austin, who laid the foundations of our great
State, a State that has provided a higher education of
its Youth, we gratefully enscribe this volume of

THE STONE FORT.

The School

Memory Lane

*Down the isle our path
leads to Alumni,
Ivory-white against
the morning sky.*

Austin Building

*Here, first we entered wisdom's door,
This was our seat of learning;
Administrations' beauty oft
Set our true souls a-yearning.*

Our School

*And in this place of cultured fame,
Where down the rows the seeker looks,
The old professor, searching deep,
Assigned the task that dealt with books.*

Rusk Building

*Serenely we have climbed the
stairway to deal in strange enchant-
ments and potent truths.*

The Library

*Here is a storehouse where we
may delve in knowledge while sun-
light glints on warm stone.*

Through the Trees

*We always feel, as Kilmer felt,
When this view we do see,
That any fool may make a poem
"But only God can make a tree."*

The Campus

*Beneath these upward-pushing
buttresses we shall feel, not the
littleness of ourselves, but the vast-
ness of our horizon.*

Main Street

*We often passed this way, my friend
And hours were none too long;
The scene was like some paradise,
Portrayed in golden song.*

Westward Ho

*More like the beauty
of a dream,
This hushed roadway
lulled to rest.*

Aikman Gym

*A mystic light woos
and enthralls,
The dreamy air and
pillared walls.*

"The moving finger writes." Another year has been added to the history of the college. Old traditions have been strengthened, and new ones have arisen. Students, generally speaking, have been serious and thoughtful. It is confidently believed, therefore, that aspirations have been born and that ambitions are in process of realization. The Stone Fort comes to you as a faithful picture of the sixth year of the life of the college. In it you will find, through the passing years, many reminders of the toil and pleasures of the session of 1928-29, You will allow me, I trust, to express the hope that each student has a little better hold on the verities of life because of the year's work; that he has found in the great books of the library the story of the aspirations and achievements of man during his long history; that, withal, his own philosophy of life has been clarified, and that he is looking out into the future with hope and courage.

Very truly,

A. W. BIRDWELL,

President.

PRESIDENT BIRDWELL

STONE FORT-10

The Deans

Dean J. H. Wisely is very efficiently filling the office of Dean of Faculty during the absence of T. E. Ferguson. His time spent in teaching lends dignity to his position. We will let the old maxim, "By their works ye shall know them," speak for Mr. Wisely.

Miss Ruth Mays, a very important factor in the administration of S. F. A., has shown her intense interest in the women of the college as well as all other students by the aid which she has given toward the solution of situations concerning their welfare in the college.

Mr. C. E. Ferguson, Dean of Men, has, through his affable nature, won the respect and admiration of the entire school. He is always willing to advise with any student in the problems which may arise. He is to be considered not only a chaperon but also an advisor and friend.

Dramatic Club

Under the direction of Miss Mary J. White, the Karle Wilson Baker Dramatic Club has witnessed remarkable progress during the last year. *The King's Henchmen*, which was used as a Commencement play last year, was enjoyed by everyone who saw it, and each following presentation has been equally successful. *The Dummy* was perhaps the most highly enjoyed play of any offered by the club during the year. Using almost all new talent of the club Miss White developed a corps of actors and actresses that were exactly fitted for the parts. *The Bells of Capistrano*, another production of the club, was presented at the college and at the Austin Theatre as well.

The club, combining with the Little Theatre, present *The Importance of Being Earnest* at the Little Theatre tournament held at Houston in which contest they won honors.

1928 Intercollegiate Debaters

The call for debaters in 1928 was answered by four men, and as a result only two teams were chosen. In order that these two teams might have time to properly prepare themselves and also carry on their regular academic work, the debate officials of the college scheduled only two debates for the season, one with East Texas State Teachers College at Commerce and the other with Pineville College of Louisiana. The question decided upon was, Resolved: That the United States cease to protect, with armed force, capital invested in foreign lands, except after a formal declaration of war. The affirmative team, composed of Roy Self and F. W. Moffet, lost to the team from Louisiana by a score of 2 to 1; the negative team, composed of C. L. Armstrong and J. B. Richards, also lost to the Commerce team by the same score.

Those students taking part in the intercollegiate debates were given credit on English courses for their work.

1929 Intercollegiate Debaters

The debating teams of 1929 enjoyed one of the most successful seasons in the history of the school, losing only one debate. The three teams chosen were selected from the Debaters Club and consisted of the following men: Melvin Campbell of Groveton, D. L. Walker of Nacogdoches, Gillette Tilford of Nacogdoches, C. L. Armstrong of Flint, Max Cummings of Alto, and Foard Wilson of Nacogdoches. The teams were coached by Mr. Wilson and Mr. Davis.

The subject for the intercollegiate debate for this year was, Resolved: That a substitute for trial by jury be adopted. A team composed of three men, Armstrong, Campbell, and Walker, met and defeated a team from Pineville, Louisiana in the latter part of the Winter term, and the other teams were not chosen until the Spring term. Campbell and Wilson were selected to take the negative against a team at Canyon, while Tilford and Cummings took the affirmative against a team from Huntsville. We won the decision over Canyon but lost to Huntsville by a score of two to one.

The Debaters Club was organized in the fall term with only a few members, but before the end of the winter term several more had been added, and one intercollegiate debate had been sponsored by the organization. Two more debates will be sponsored during the present term, and indications are that the Club will be permanent. Only part of our plans have been realized, however, and it is hoped that the future members of the Club will perpetuate the things that we have worked so hard to get started.

PURPOSE

The Swayers were organized in the fall of '27 with the purpose of producing organized pep for all athletics events, and the promotion of general college spirit. This term marks the completion of the second successful year, and leaves no doubt in the minds of its members as to the potential strength of such an organization.

The organization this year has set several precedents that its successors might do well to continue; among them the annual banquet and the trip to the Lumberjacket-Bearkat basket ball game.

We hand the future Sawyers the baton with the assurance that they are on the right track with an unobstructed pathway toward a worthwhile goal.

Lumberjackettes

The Lumberjackettes were organized in the fall of 1927, with Margie Whittington as president and Miss Virginia Broadfoot as sponsor. This pep squad is a twin sister to the Sawyers. The two organizations cooperate in the promotion of college spirit and clean sports, and are outstanding in their loyalty to the school.

The season of 1927 was an eventful one for the Lumberjackettes, but not nearly so much as the year 1928-29. During the past year the Club made a trip to Huntsville with the basket ball boys, and has been present at all athletic events. Too, the best All-college Dance of the year was sponsored by them. This, one of the peppiest and most representative organizations on the campus, closes a very eventful year, with Ida Farris as president and Margie Whittington as sponsor.

WINTER-1929

W. A. A.

The W. A. A. is the most representative organization on the campus of S. F. A., as well as the largest. This organization includes the various sports of the Women's Athletic Department. Each girl is a true representative of this group, as requirements are made in the social, physical, and literary. There are two meetings held a month, the first being a business meeting, but always having an interesting program in connection with it. The second meeting is strictly social.

W. A. A. Council

The W. A. A. Council is the nucleus about which the W. A. A. works. This group sponsors one of the most representative organizations of the campus, not only in number, but in the spirit of fair play and congeniality among its members. This year for the second time the W. A. A. sponsored a Play Day, a precedent which is being followed by the various Teachers' Colleges of Texas and Louisiana.

This club was organized for the dual purpose of a "pen and pep" organization. At the beginning it met with difficulties due to the fact that it was non-conventional and not trite. However, things were all cleared, and the group did a few things of interest during the year. Plans were made for a greater programme next year, and it is hoped that this organization will develop into a good writers club.

The College Band

Director J. T. Cox was on leave of absence from the college during 1928-29 and the task of directing the college band was placed in the hands of Mr. T. N. Brothers, director of the Nacogdoches Municipal Band. Mr. Brothers combined the college and Training School musicians into one group and in this way formed a band of about thirty instruments.

The College Band appeared at all football and basket ball games, as well as most of the social functions. At such time members of the town band assisted in making everything a success. The Band expects to give musical concerts on the campus a little later in the season and with the addition of a summer students an orchestra will be organized. One-third college credit is given for each term of work in the band.

Choral Club

The Choral Club is composed of a volunteer group of music lovers. Since its organization the first year of the college, it has given many musical programs of interest, and has been the musical representative of the college on many occasions in the city and on the campus.

The Choral Club of 1928-29 formed a nucleus for a choir of over three hundred voices which furnished the musical background for an elaborated and impressive Christmas Pageant, Los Pastores. This choir sang carols of many nations, ranging from those of ancient to modern origin. The Club at this time rendered several difficult numbers, among them being the Hallelujah Chorus which was used as a finale for Los Pastores.

At Easter the Club furnished the music for a beautiful Sunrise Service, on the south vista of the campus, which was sponsored by the college Y. W. C. A.

1928 Stock Judging Team

Dr. D. D. Giles, Professor of Animal Husbandry, again brought honor to S. F. A. by repeating his act of the previous season and in 1928 training a live-stock judging team that literally "cleaned up" at the Southwestern Exposition. The team, composed of Carroll Thomas of Gary, Sterling Graves of Gary, Neil McDuffie of Garrison, and Cheslie Mitchell of Nacogdoches, won first place as a team, bringing away all of the cash prizes offered by the Fat Stock Show. Besides placing first for the school these boys hung a few scalps to their belts by individual honors. Thomas was high point man of the entire show, winning first in the judging of hogs and beef cattle and third in dairy cows. Graves won second place in the judging of sheep and dairy cattle, while McDuffie won three third places.

For the past two years at least two men from Gary and one from Garrison have been on the team to represent the college at Ft. Worth. Each time one of the Gary boys has won highest individual honors. In 1927, Todd and Richards were the representatives, with Todd winning high honors, while Currie was the Garrison product. Later, as a result of their placing at the Exposition, Todd and Richards were elected as members of Lambda Gamma Delta, a National Livestock Fraternity. Thomas will no doubt be elected to this fraternity soon.

1929 Stock Judging Team

The Livestock Judging of 1929 Team was composed of Cyrus Heaton of Gary, Taylor Rhodes of Garrison, Mainor Westbrook of Newton, and Edward Hoya of Nacogdoches. This team was coached by R. R. Harvin.

Before going to Ft. Worth the team went to College Station and spent some time doing judging work on the A. & M. farm. Here they were assisted by Dr. D. D. Giles, former coach of livestock judging of this college. After rounding into final form, Mr. Harvin with his team motored to Ft. Worth in time for the opening of the Southwestern Exposition and Fat Stock Show. The team was unable to place any men as high individuals but placed fourth as a team. Much credit is due Mr. Harvin for this credible showing, since it was his first year to train a team and, with the exception of one man, having only beginning students with which to work.

Tumbling Team

The Tumbling Team, as an organization, is a newcomer on the campus. A similar club was maintained last season to assist the Lumberjackettes in providing entertainment on different occasions, but nothing definite in the way of training was begun until this year.

The organization is composed of a volunteer group of "limberjacks" who specialize in such stunts as pyramid building, over six, clever tumbling, and cart wheeling. Several members have already shown marked ability for the stage and under more strenuous coaching should develop into real acrobats. Much fun was furnished by this group during the past basket ball season and the club has become very popular.

BOOK IV
Athletics

Coaches of Athletics

R. H. Shelton, as Head Coach of Athletics, is rounding out a very successful season. Altho he did not produce a winning team in football, due to lack of material, the Lumberjacks finished high in the basket ball conference and the baseball squad is headed for the championship. With a new addition to the coaching staff, Mr. Shelton will become Director of Physical Education. Aside from his duties as athletic director, Coach Shelton is a man who is admired by all who know him.

W. W. Dossey has been away from the college most of the year as he is pursuing his studies at a northern university. Mr. Dossey is an able assistant in the athletic department, and has been instrumental in producing some winning teams. He knows how to instill the fight spirit and always commands the respect of his athletes.

J. H. Hinds is track coach. He performs this duty in connection with his regular work in the agricultural department and his track teams are not to be hooted at. His personality makes him a favorite with all the men and it is a pleasure to train for "Jimmie."

Yell Leaders

"Andy" Smith served his second year as chief yell leader; and we are sorry that it is his last, but the tall youth must graduate. During the time he has served in this position, "Andy" has won the respect and admiration of all the students and has successfully directed organized "rooting" for all athletic events and assemblies. He will be missed when the Lumberjacks get into action next season.

Mary Lee Walton is another of the cheer leaders who will be lost through graduation. She was elected by the students because it was felt that the fairer sex needed a representative on the yelling staff, and after election she served so faithfully that she became indispensable.

Murray McKenzie is the third member of the "gloom-chasers" corps. Murray has "it" when yelling is needed and can be depended upon to lead the students when a rally is needed. Fortunately, he does not get his degree this year and can be used another season.

"T" Association

"It is the quality of the men that makes the quality of the college"

The "T" Association of the college is made up of those men who letter in one or more of the major sports. The primary function of this organization is the stimulation and promotion of clean athletics, the safeguarding of American sports, and the building of a fraternal order of lettermen.

At the beginning of the season the association was reorganized. Officers were elected, certain rules and regulations were adopted, and a definite program was formed. A close cooperation with the Athletic Council and other officials of the college made a realization of this program possible and an eventful season was enjoyed. All of the former athletes of the college were invited to attend the annual banquet held at the Liberty Hotel at which time plans were made for the nest season.

STUDENT BODY

To Our Athletes

We are proud of those men who uphold our athletic standards on the fields of contest. They do not always win, but with such spirit as is manifested by them, we are never the losers. Upon them falls the burden of protecting the high type of athletics that it has always been the desire of this entire school to foster. These men have measured up to the highest standards of sportmanship. They have carried the spirit of our college upon many fields, and there they have performed in such a way as to do credit to themselves and to bring glory to their school. These true gentlemen, knights of the gridiron, basketball court, diamond, and cinder path, have always loved a good clean fight and have played the game fair. To them who stand for a good clean fight, who hold their athletic ability as something money cannot buy, and who always work for clean athletics—to those true sportsmen and gentlemen, we inscribe this page of the **STONE FORT**.

CLAUDE STONE

TACKLE

Stone was perhaps the steadiest and most dependable man on the club. A thrust at his side of the line always founds a "Stone" wall.

EARL ADAMS

TACKLE

Earl played a whale of a good season at tackle and if he does not return next year, he will be hard to replace. He is big, fast, and hustles all the time.

BOB GILLESPIE

HALF

Bob is a freshman from high school here who made good his first year. He was one of the best defensive backs seen here.

DELMA ALLEN

HALF

Allen was a product of the high school here. He always enjoyed playing football because the rougher the game, the better he liked it. He was a ball carrier of merit.

MELVIN CRIPPEN

FULL

"Little Martha" was out most of the season because of a broken elbow, but he broke into enough games late in the season to earn the coveted "T."

LEONARD SMELLEY

HALF

Smelley played his third year as a member of the Lumberjack team and showed his old-time form. He was a most vicious tackler and elusive runner.

STANFORD BATES

HALF

"Wilcat II" was always anxious to strut his stuff on the girdiron and never failed to "put out" when given the chance.

JOE BARHAM THRASH

The "Cajun" played enough to receive his letter but because he failed to complete his academic work, he did not receive a sweater.

SUBLETT PYLAND

QUARTER

Pyland was a first-year man who came here from Allen Academy. He was a veritable stone wall on defense, as well as a fine ball "toter."

J. B. ADAMS

END

J. B. is a promising freshman from Timpson who bids fair to outshine his big brother in future years. He is big and exceptionally fast for one of his size.

Resume of 1928 Football Season

The Lumberjacks opened the season with Baylor, one of the Strongest South-western Conference teams, and for the first half battled them evenly. The second half, however, found the Lumberjacks exhausted and without reserve. Baylor kept a string of substitutes coming in and finally won by the score of 32 to 0.

The second game found the team invading the camp of an old rival, the Bobcats. The Lumberjacks were defeated in a slow and listless game 20 to 0.

Commerce defeated the Lumberjacks 26 to 0 for the first time in four years. The score fails to tell the closeness of the game. Three times the Lumberjacks had the ball on the one yard line but failed to carry it over.

In the next game with Lon Morris the Lumberjacks played a little better brand of ball and won by a score of 12 to 0.

Possibly the best game of the season was played against Denton, resulting in a score of 13 to 6 in Denton's favor.

In the next five games the Lumberjacks went steadily down the hill, losing to McMurry 49 to 0, Louisiana State Normal 20 to 0, Kingsville Teachers 45 to 0, Texarkana Junior College 20 to 0, and to Sam Houston State Teachers College 18 to 2.

The greatest trouble of the season was the lack of experienced material and the failure of the team to develop as the season progressed.

HASKELL STREET
*Captain-Elect and
Forward*

Haskell was the main cog in the 1929 basket ball machine; his passing stood out in every game. By his hard work and fighting spirit he was elected to captain in the 1930 cagers.

Miller, Adams, Rusk, Captain Weir, Evans, Donnell, Street.

NOTE: Sam Herrington and Buster Morgan should also have been on this picture as lettermen.

TOMMY EVANS
GUARD

Evans was even better this year than last, and he is a hustler all the time. He has a very good eye for the basket and is a good defensive player as well.

EARL ADAMS
GUARD

Earl was a very capable guard, capitalizing his great height and weight. His development this past season was remarkable, and he will be a very dependable man next year.

TROY DONNELL

FORWARD

"Hot-Shot" is the first S. F. A. basketballer to gain the distinction of being placed on the mythical all-T. I. A. A. team. He was the leading scorer, scoring more than any two of his teammates. He was also a good defensive man.

BUSTER MORGAN

GUARD

Buster is known as "Slow Motion" but surprised his critics by his hustling and scrapping tactics. He developed into a dependable guard, and he was very accurate with his long shots.

EARL JACKSON

FORWARD

"Jack" is one hot Freshman when it comes to playing basket ball. He came here with a good high school record and is keeping it clear in college. We are expecting to see more of him next year.

IRELAND RUSK

CENTER

Just when the loss of Sam Herrington had cast a shadow of gloom over S. F. A. along came "Ox Cart" Rusk and filled his shoes as capably as any Freshman could be expected to. He had an uncanny eye for the basket.

ELLIS STAGNER

CENTER

"Slime" is a lanky youth from Pineland who knows how to handle the pill. His position is at center, and from this place he likes to drop the ball thru the basket.

BOOKER MILLER

CENTER

Booker came here this year with a good reputation and a head of curly hair that made the girls envious. After the season is over the reputation and the curly hair are both still envied and admired.

Resume of 1928-29 Basket Ball Season

The Lumberjacks played two pre-eason games with Texarkana Junior College and took them both by top-heavy scores. Immediately after the close of the Christmas holidays Lon Morris Junior College came over to engage the 'Jacks. They were also snowed under by the smooth working offense of the home team.

The first real test came when the Centenary "Gentlemen" came here for a two-game series. The 'Jacks won the first game 43 to 34, but the "Gentlemen" came back very strong the second night to win a thrilling 45 to 43 victory over a fighting Lumberjack team.

The Kingsville Teachers came here for a two-game series, and although they put up a good fight both games, the Lumberjacks won because they were evidently the better coached and smoother working team.

The 'Jacks journeyed to Denton to open the conference race. They were somewhat of a pessimistic team because they were without the services of Sam Herrington, star center. The 'Jacks were evidently not up to top form when the Eagles won the first game 38 to 32. They came back strong and won the second game by a score of 32 to 20.

That same week the Commerce Lions came to Nacogdoches and took two games from the 'Jacks. The first game was one-sided, but the second was a thriller all the way.

The Lumberjacks went to Huntsville to battle their traditional enemies. The Sam Houston team outfought the 'Jacks to take the first game 35 to 26, but the 'Jacks came back to take the second game by the same margin.

The "Wood Cutters" then went to Commerce determined to avenge two defeats already suffered at the hands of the Lions. Commerce won the first game by the top-heavy score of 86 to 26. The Lumberjacks showed their unconquerable spirit by winning a thrilling 30 to 28 victory the second night.

Buoyed up by their victory over Commerce the 'Jacks came back home to take two games from the Huntsville Bearcats by 30 to 28 and 33 to 27 scores.

The Lumberjacks engaged their friendly enemies from Louisiana in a four-game series, winning one and losing three games. They returned home to play the last games of the season with Abilene Christian College. The 'Jacks were victorious the first game but lost the second 33 to 39.

This complete the most successful basket ball season S. F. A. has known. The 'Jacks finished fifth with a .500 average. Denton and Natchitoches were defeated for the first time.

Ted bids fair to return to his old form which won for him the honor of all T. I. A. A. outfielder two years ago. He is hitting the ball with all his power and covers this section of the field to perfection.

Front row: Hybarger, Jackson, Smith, Sharpe, Evans, Rousch, Pate, Thrash.

WALLACE PATE
Star Pitcher

LUMBERJACKS DUGOUT AND MEN IN ACTION

TOMMY EVANS

CATCHER

Tommy is one of the few three-letter men in school, already having won his letters in football and basket ball. Tommy promises to be much improved over last year. He is a very hard hitter, heady receiver, and has a rifle arm.

HASKELL STREET

INFIELD

Haskell is one of the best infielders in the conference. His being shifted from second base to short made no difference and his fast fielding makes him dangerous. Street has another year with the 'Jacks.

LEONARD SMELLEY

OUTFIELD

Smelley is out to win his second letter in baseball, and if determination and hustling count much, he will succeed. None try harder than the "Jew."

EARL JACKSON

INFIELD

Jackson is the third of the trio who hail from Pineland. Jackson bids fair to outshine anything previously seen here at third base. He has an uncanny knack in grabbing the hot ones, and he has a rifle throw to first.

ED SHARPE

CATCHER

Ed shares the catching duties with Evans, and there are few better receivers than Big Ed, but he is handicapped with a weak throwing arm.

"LEFTY" SMITH

PITCHER

"Lefty" will probably see more service as an outfielder than as a pitcher because of his hitting ability. If needed, he can be depended upon to southpaw most any team into submission.

DELMAS HYBARGER

INFIELD

Hybarger, a n o t h e r freshman from Pineland, shows a marked ability to play baseball but lacks the competitive spirit necessary to become a great player.

DARRELL MAY

PITCHER

Darrell is starting his second year as a hurler. Last year he did not break in until late, but he had an enviable record. Darrell always "bears down" and he is a powerful hitter.

ELLIS STAGNER

INFIELD

Stagner is an elongated first baseman who hails from Pineland, where they make baseball players. He is showing up well in early season games both at bat and in the field.

J. B. ADAMS

OUTFIELD

Adams is a freshman but never lets that worry him. He handles himself like a veteran and takes a powerful cut at the ball.

HIRAM BUCHANAN

PITCHER

Buchanan is a veteran of many seasons of baseball though only a freshman in college. He is a pitcher primarily, but he can also play in-field or outfield. He will probably see much service than in the box.

ZERKEL ROUSH

PITCHER

Roush is a freshman but has had several years of experience pitching for amateur clubs. He has an assortment of stuff that is hard to hit.

Resume of Baseball Season 1928

The season started when the Lumberjacks dropped a game here to the Lon Morris Bearkats by the score of 10-8. The 'Jacks won the other three of a four-game series from the Junior College.

The Conference season was opened when the Lumberjacks journeyed to Huntsville. The two teams split a two-game series, Huntsville winning the first 9-4, while the Lumberjacks came back strong to win the second game 16-3.

The second Conference team the Lumberjacks engaged on the diamond was Commerce. Commerce took three out of the four games, one of the games being by a 23-9 score. This is the most disastrous series suffered by the Lumberjack baseball team since they entered T. I. A. A. competition.

The 'Jacks closed their most unsuccessful baseball season in the history of the school by playing a four-game series with the Louisiana Normal Demons. The two games played on foreign soil resulted in tie games, both by 5-5 scores.

The Lumberjacks finished third in the T. I. A. A., having lost four games in the Conference race.

"Doc" ends his fourth year with the Lumberjacks. He could always be counted on to take care of the shot and discus, and to run a snappy quarter as anchor man in the mile relay. No one will be missed more next season than Willam.

1929 TRACK TEAM

W. M. RAY
Weight Star

Front row: Adams, Woods, Wilkerson, McMullin, Rochefort, Gillespie, Jackson, Stagner.
Middle row: M. Jackson, Lewis, Green, Ray, Ingram, Lacy, Bates, Stone (Captain).
Back row: McDonald, Beall, Morgan, Todd, Cummings, Crippen.

O. J. WILKERSON

DASHES

The "Dayton Flash" wins his recognition by stepping the quarter in good time. He is also a member of the relay team and will see further service next year.

MILTON McMULLEN

HURDLES

"Lufkin" was doing his stuff over the obstructions but an injury early in the season kept him from winning his letter.

J. B. ADAMS

DASHES

J. B. came over from Timpson and literally ran away with the sprint races. His speed in the 100 and 220 soon enabled him to pile up points for S. F. A., and he is expected to cop his share of the honors at the Conference meet.

HOMER LEWIS

DISTANCE

Lewis is a carry-over from the cross country team and a 2-miler of marked ability. He has the determination and all other credentials for distance running, and is expected to take some more points before the season closes.

BUSTER MORGAN

HIGH JUMP

Morgan is going thru his second season in great form. He can pole vault as well as high jump and is a consistent winner.

DEWARD TODD

MIDDLE DISTANCE

"Bill" is serving his last year with the 'Jacks. His lengthy stride in the half-mile and quarter has brought him a letter each season, and he will be missed next year.

BYRON INGRAM

DASHES

"Wildhair" is the "dark-horse" from Gary who made good his first trial. He was able to step the quarter just a little faster than his opponents, and was a sure bet in the relay.

ROBERT GILLESPIE

DISTANCE

"Bob" came up from 'Doches high and took care of the mile. His stickability always carries him thru each race with a better record, and he has three more years with the varsity crew.

Resume of 1928 Cross Country Season

Coach Hinds gave the call in the fall of the year for men to run three miles. There were twenty-five men to report, Todd and Cherry being the only letter-men returning for the grueling race.

After many weeks of practice the squad got their first taste of competition when they won from Lon Morris by the score of 15-6. Five Lumberjack runners tied for first place: Cherry (Captain), Todd, Donnell, Wilkerson, and Jackson.

On November 17 early in the morning Coach Hinds embarked with eight men to race the Huntsville Bearkats at the South Texas Fair. After running over concrete, shell, and mud, the 'Jacks took the short end of the score of 32-23.

The T. I. A. A. meet was run off in Huntsville where four teams were entered into the contest. The purple clad runners of S. F. A. took second place. The ancient rival of the 'Jacks, the Huntsville Bearkats, took first place. Daniel Baker finished third, and Abilene Christian College fourth.

After the season was finished upon recommendation of Coach Hinds, the Athletic Council awarded the following men the coveted "T": Cherry, Todd, Donnell, Wilkerson, Lewis, and Thomas.

Resume of 1928 Track Season

The Lumberjacks took a long jump into Louisiana to enter the Southwest Relays at Lafayette. The team was entered in two freshman relays, as the team had only one veteran to make the trip. The team won two third places in medley and mile relays.

The second meet of the year found Coach Hinds with his freshmen groomed to beat their junior college rival in a close meet, by the score of 60-55. The mile really won the meet for the 'Jacks.

The feature meet of the year was to be held in Huntsville where Natchitoches and Nacogdoches assembled to meet the Bearkats in a triangular meet. In this meet the 'Jacks were nosed out of second place by Natchitoches, and Huntsville won first place.

Lon Morris was not satisfied at their close defeat; so they came to Nacogdoches to get beat by a small margin of three points, when the Lumberjack's relay team took first to win the meet by the score of 60-57.

April 26 saw the 'Jacks take the worst defeat of the season when Huntsville with a strong team beat the Lumberjacks by a lop-sided score of 81-32. The only feature of the meet was in the mile relay where the 'Jacks lost by a scant yard. Reeves won the only first place in the 220 yard low hurdles.

The T. I. A. A. meet was held in Denton, and Coach Hinds took ten faithful workers to the championship meet where they amassed the total of one point. The following men made the trip: Thomas, Stone, McClain (Captain), McMullen, Wilkerson, Burch, Morgan, Reeves, Clark, and Todd.

Tennis

The Tennis Team is rounding out one of the most successful seasons in the history of S. F. A. At the time the STONE FORT goes to press they are undefeated, and are making a strong bid for the T. I. A. A. championship.

The 1929 team is composed of A. H. Smith, Gillette Tilford, Joe Barham Thrash, and John Terry, with J. T. Herrington and Lew Sayers substituting. The team is being coached by James Taylor. Early in the season the team defeated Lon Morris at Jacksonville, and also took the second matches in a contest here. Huntsville was the next victim of the 'Jacks, being forced to drop both singles and doubles on the local court. The squad then went to Huntsville and gave them their second drubbing. In this match the flashy playing of Terry was the big feature, with Thrash playing his usual consistent game.

The team is now training hard for the Conference which meets in Austin, May 10-11.

Like to play ball? These girls do, and the ole gym is never more popular than during a championship contest. Somehow the Fish won the crown this year.

Nothing was spared in making the Carnival parade the gala event of the season. Two miles of "Slimes," dignified Seniors, convicts, gentlemen in stocks, and beautiful floats.

Spring weather brought the fantastic toe, with the All-College "gym jam" and wood nymphs prevailing. Others chose to stand on their heads.

Dignity personified. Senior week came too late in the season, so special privileges were taken at an early date.

Yea, Sawyers! Whoever said that the Sawyers were dead just didn't know about the trip to Huntsville and the big banquet.

THE PINE NEEDLE

ALONE IN THE

A Collegiate Editor

A college editor should be a superman endowed with the patience of Job, the editorial ability of Horace Greely, the managing and directing ability of Charles Schwab, the diplomacy of Woodrow Wilson, and the judicial qualities of former Chief Justice Marshall; he needs the keen humor of Lincoln, the dignity and philosophy of Socrates, the religion of John Wesley; he should have the literary ability of Shakespeare and the lack of conscience to perpetrate the atrocities of Amy Lowell.

In addition to these few qualities he needs the physique of Jack Demsey, the nerve of a holdup man and Edison's ability to do without sleep. His brain should be so constituted that he could absorb the essentials of the 20 credit course by means of the barest perusal of the subject therein contained with honors so the faculty will respect him and allow him to remain in school.

He should be absolutely foreign to the needs of rest, sleep, eating, recreation, the love of society, the inclination for the glory in athletics, school activities, and love. Having these few abilities to qualify as a fairly competent editor, there is a possibility that he would not be hauled on the faculty carpet more than once a week and kicked by the student body in general more than once a day.

SUNDAY - 1:30-3:30 P.M.,

WOMEN'S SOCIETY

Stone Fort Staff Meetings

Upon finding several of the Staff members lounging around the office on Thursday night, Editor Todd conceived the fertile idea of setting that time aside for regular meetings. This went very well until said information reached the Dean's office, whereupon it became necessary to make some changes, namely, that this said meeting be entered upon the Calendar and that female members of the Staff secure permits to attend.

The first meeting was presided over by Sponsor "Jimmie" Taylor who outlined the questions which he expected to give his History class on final examination. (Note: Hawley and Jessie Lee were taking said course). A more or less round-table discussion was then entered upon, and such vital questions as the disillusioned condition of the faculty and the future of the college were thrashed out. N. L. Allen said that if certain people around the campus would only keep their noses out of the pie that the Staff would be able to put out a good book. Associate Editor Walton replied by saying that a good book was going to be published if she had to do it all by herself, and Frank Runnels punctuated this statement with a deep guttural "amen." It being decided that the STONE FORT would really be published, the next question employing the minds of this august body was: Who shall serve refreshments at the regular meetings? The "fairer sex" agreed to serve first if the male beings would return the favor. Agreed.

Well, the next assimilation of the Staff was in the form of a called meeting. "Bill" Todd got his feet on the top of the desk and asked if anyone had anything to offer for the good of THE annual. Helen Moore said that she had lots of good ideas if she could only get them on paper, and Lucille Lacy said that she had already begun copying jokes from "Whiz Bang" for the College Life section. Todd began assigning duties on the different members but soon called an intermission for the purpose of listening in on a Radio program just then gotten by Haskell Street (they were in the Social Room). After this treat the members were served (by the girls) another delicate course, consisting of "Hot Dogs" with plenty of onions.

It was some time before the Staff met again, for, as Raymond Rochefort said the masculine genders had some difficulty in raising funds with which to pay for refreshments, which, by the way, consisted of stale cheese sandwiches and salty pretzels. Too, a delay was caused in sending an invitation to Hesis West to come over from Lufkin and be in on the fun. Nothing worthy of mention was undertaken at this meeting, and the third and last convocation of "the gang" was adjourned after Murray McKenzie had sung "My Wild (Pennsylvania) Irish Rose" in bass clef.

She awoke in a daze (day's What?) and tried to recall how she came to be here in such a place. The flimsy garments that she perceived hanging on the chairs indicated that the room had received more than one innocent victim. Horrors, the other bed had been slept in. She had spent the night in the same room with this obstreperous person (don't ask what sort of person that is). Now, she felt the room whirl-

ing about her; everything was a mass of motion; now she remembered—that mass of luring, greedy eyes to which she had been exposed. It was only yesterday and it seemed years. How these terrible experiences had aged her.

On her door she found a list of rules to be strictly obeyed. "Breakfast is served at six," stated one rule. "At six what?" asked Miss Anne Thrope, for that was Miss Anne Thrope's name. Her roommate was called Miss Anne Thrope. Our heroine answered that breakfast was served at six tables.

One rule stated that because of highway laws only four persons were permitted to ride in one-seated cars. No provisions were made for the number to ride in tractors and steam rollers.

Another rule stated that because of the fragility of cast iron no two girls should bathe at the same time lest they crash the tub.

CHAPTER IV

Miss Anne Thrope asked our heroine what rules were for, and our heroine was prepared for such a question, for she had had a course in geometry. Rules were to draw stright lines by.

Night Editor's Notes

While digging around in the rubbish of the office, a Staff member got into the secret archives of the Staff Detective. From his notes we have excerpted the following particulars, and it should be kept in mind that these are actual notes made by the gum shoes while snooping around abodes in the wee small hours of the night:

POTTS HOUSE—Scared away by gruff, deep voice of Lucille Lacy; mistook the place for a boys' dormitory.

BRIGHT HOUSE—No one downstairs. Tall figure resembling that of Ell Daniels seen outlined against window shade. Noise and confusion.

HERRINGTON HOUSE—After stumbling over twelve cases of beer in the first room, found the entire gang in the rear of the house listening to a bedtime story from Sub Pyland.

CRAWFORD HOUSE—Found that several girls had "hung" themselves at the door. Was unable to identify the boys. Found "Red" Wilkerson warming a bench in shady nook near the house.

DEARING HOUSE—Passed rigid physical examination before entering. House had just been "shook down" and Poole was hiding in the closet of Hallmark's room.

HANNA HOUSE—Found them making their biennial attempt to make their shack look decently. Some girls still seated on the east side of the house, hoping to attract the attention of some passing car.

MORGAN HOUSE—Not being interested in tires, especially flat ones, no time was wasted here.

CARLTON HOUSE—Gaming resort. Bridge, chess, cross-word puzzles, and all forms of poker.

PINET LODGE—Too hot to enter.

GREEN LATERN—Air of dingy respectability prevaded the ancient stomping grounds for campus idols who have long since fallen. House seems a memorial to the forgotten glory of those who have gone before us.

MUCKELROY HOUSE—All quite.

Night Editor's Notes—Continued

WILLIAMSON HOUSE—Saw square-built figure hurrying away, whistling “She likes a long good-night.” Others found hidden behind the vines around the porch.

COLLEGE PHARMACY—Everyone gone home except the proprietor, Andy Smith, and I. D. Powers.

SULLIVAN HOUSE—“Wildhair” Ingram telling how to rate with the women and “Bill” Todd enlightening everyone present on how it felt to be in love.

BONE HOUSE—Romance and orange blossoms, soft music, lovely eyes. Only two girls gone on dates.

LOWERY HOUSE—Girls undressing with curtains drawn (aside).

COLLEGE INN—Macbeth Hawkins and Beatrice Jordan waiting for their second date of the evening. Baker and Hughes seen eating a banana.

TAYLOR HOUSE—Homer Lewis just in from a wild party and telling how he played the part of Nero. J. B. Richards not in.

CAUSEY HOUSE—Car parked at curb. Inmates unknown. Elma Bumgarner and Willie Mae Dominy strolling toward the corner drug store.

GREEN HOUSE—Fought our way through a mob of bootleggers, bill collectors, and prohibition agents gathered around the front door. Slime Cook showing boys how to play “coffee pot.”

MATTHEWS HOUSE—Unable to find anything of interest.

BARRY HOUSE—Dick Weir telling of his career as a basket ball professional. Found that Sitton had left the house in anger because of having lost twenty cents in a “black jack” game.

MITCHELL HOUSE—Westbrook waiting to see who brought his girl home. Jimmie Gray walks slowly by house.

NOWLIN HOUSE—Inmates had retired early. Deep snoring issues from windows on second floor. Beat hasty retreat for fear of waking someone.

Advertisements

You have probably heard that there would not be any advertisements in the STONE FORT this year. Well, tain't so. No college annual was ever put out without advertisements, and it can't be did. The Pine Needle editors have talked things over, and have hit upon the following plan for getting ads to help out the STONE FORT.

Hoping that this arrangement meets with the approval of everyone, we are your humble servants and hope you the same.

LOST AND FOUND

FOUND—In library, an English note book written in red and black ink. Call at Reserve Desk.

LOST—On campus, a large Kangaroo skin bill fold with gold clasp and lettering. Contained three one-cent stamps and receipt for tuition. Phone 395J.

LOST—Hat, panama, left in class room and probably taken by mistake. Finder please return to Hawley Powell.

One of our number, Wade Griggs, has lost his note book and incidentally his knowledge. Anyone finding and returing same may hope for reward.

WANT ADS

WANTED—A key to Algebra and Trig.

WANTED—A newly invented excuse to offer my teachers for may absences. "I-had-to-go-to-the-dentist" doesn't work any more.

A. Freshman.

WANTED—An advisor to help me decide what teaching position to take for next year.

A Senior.

WANTED—A date with some girl at the Piney Lodge.

Delmas Hybarger.

FOR SALE

FOR SALE OR TRADE—Two term themes in Education courses; also one short story for English work.

Luther Grant.

FOR SALE—A good diamond ring; same as new.

Ed Sharpe.

FOR SALE—All censored material left in the STONE FORT office. Real bargain. The Staff.

Anyone wanting to sell my pictures to the girls please see me at once. As a special inducement to the ladies six headache tablets will be given with each picture.

Hodie Wilson.

Why Faculty Members Go to the Power House

It long remained a secret as to what was attracting the members of our faculty to the Power House. We all knew that the male members were organized into a Faculty Club, and it was thought that this was their clubhouse. But the Staff succeeded in secreting a man in the Power House and the real "low down" was obtained. It was found that the gigantic boilers had been converted into huge beer vats and a nice, modern "shinny" still was in operation.

From his hiding place in the coal bin the reporter saw that Mr. Sparks was master of ceremonies. The drinks were always "on the house," and after all the members had gotten in from classes the fun began. The secretary, Professor Upton, called the roll and each one present answered with a hiccough. Of course there was no business to attend to, and after each had become too top-heavy to stand they were seated and the program began. The following is the program that was given, it consisting entirely of disconnected speeches:

Speech on "Ten reasons why I bought a Buick," by Mr. Birdwell.

Illustrated lecture on how to hold a pipe while smoking, by Mr. Cain.

A nice "line" on "What I made last year raising Rhode Island Red Chickens," by J. H. Hinds.

Demonstration on how to get the most out of a cigar, by Mr. Wisely.

Speech on "What I would have done if I had been elected State Superintendent," by Mr. Garner.

At this point of the program the members became too "talky" and Hood Goldsberry, who was acting a Sergeant-at-Arms, dispersed the instructors in time to reach their next classes.

The Parable of The Freshman

1. And it came to pass that the son of a husbandman graduated from the village high school. Now, the husbandman was greatly pleased with the accomplishment of his offspring.

2. As the ninth month approached the husbandman called to his son saying: "My son, draw nigh, I would have speech with thee." Thus spake the father: "Son, thou art pleasing in my sight. Methinks I will send thee to Stephen F. Austin State Teachers College, that great Temple of Learning, that you may sit at the feet of the wise men and women and learn of them. Therefore, my son, gird thyself in thy best raiment."

3. Straightway the young man arose, packed the family trunk, and departed for the station in his father's trusty flivver.

4. After many hours the young man arrived at the Temple of Knowledge which is situated in a place called Nacogdoches of Texas.

5. Now, the wise men of the temple admonished the young man to schedule for a heavy course. Being a stranger in the land he heeded their advise and was given a list of subjects that involved much trial.

6. When the young man beheld his schedule he was sorrowful. And he said: "I will arise and go to my father."

7. Now it came to pass as he was about to leave the temple he met a group of young men. Noting that he was bowed down with grief they comforted him, saying: "Be of good cheer. Your schedule is not heavier than you can bear. Behold us. We neither study nor toil, yet Solomon in all his wisdom could not make better grades than we."

8. And the young man lifted up his face and rejoiced. And he spake unto the young men, saying: "Your courses shall be my courses, and your teachers my teachers."

9. So the young man anointed his head with oil that his hair might stick down hard and fast.

10. It came to pass that the wise men and women of the temple worked diligently that the young man might acquire knowledge. To show his appreciation of their efforts he straightway cut a class.

11. The young man soon became accustomed to life in the temple. He chose the teachers whose courses were easy and whose teaching was light.

12. His life was one of ease and contentment. Sometimes he attended assembly where a strange man, whom he seldom saw, admonished the young men and women to devote themselves to much study. But it was a voice crying in the wilderness, for the young man heeded it not.

13. After many days the young man returned to his father's house.

14. Now, the father marveled at his son. For the young man could send cigarette smoke forth from his nostrils. He slept during the day and wandered about at night.

15. And the boy's mother spake unto her son, saying: "Son, did you spend much time in the library?" And the young man answered his mother, saying: "Surely, mother, you speak foolishness. There is no study hall at the temple. There are class rooms, where I sometimes went. There is an auditorium where I found many pleasant companions. There is a campus where I spent much time and there is a gym where I danced. Too, there is a Green Lantern where I often refreshed myself, but surely, mother, I learned nothing about the library."

16. And the mother, loving her son, pressed him no more questions.

A HAIL STORM

VIEWE TORM-40

When Sawyers Get Together

About twenty-five Sawyers assembled in Room 107 which resulted in a meeting. The house was called to order by Brother Jenkins. Brother Smith then arose and asked that a committee be appointed to burn all last month's bills and keep a sharp watch for collectors. This met with great approval, and each member slapped the other on the back and told how glad they were that they were Sawyers. An attempt was made to begin the program but this attempt was interrupted by Brother Meisenheimer who came in late as usual. The ceremonies, however, finally began with a Black Bottom contest between Brothers Stagner and Grant. Folloing this came a duet, "She's my Girl Friend," rendered by Brother Cook and Brother Jackson. Brother Hybarger came reeling in and announced that he knew where to get some liquor that would not eat the fillings out of your teeth. This brought forth a temperance lecture from Brother Hawkins, resulting in a resolution by Brother Hall to quit drinking and devote his energies to writing poetry, whereupon several of the brothers went into hysterics. Just then Brother Hunt and Dunn came in and allowed that they could whip any five men in the organization and a free-for-all began. Brother Walker fined all the members \$1.00 apiece and order was restored. The meeting continued after Brother M. Campbell had opened a window to let out the smoke from Brother Kirtley's pipe. Brother Koonce made a motion that the club buy some spittoons, as the floor was getting a bit untidy. Brother Chandler then arose and told how to become popular with the women and Brothers Clark and Terry fell out of their chairs in a fit of laughter. Brother Melton suggested that the meeting place be moved to the Williamson House for the convenience of Brother O. Campbell. After an intense silence fifteen pledges were initiated, and all the men agreed to meet at the game next day and "raise hell." The meeting was adjourned when Brother Todd began telling how he was elected editor of the "Stone Fort."

Clubs and Other Parasitic Organizations

Somehow it seems propitious that we say something or other (mostly other) about the clubs on the campus. For, naïve or verdant reader, this college abounds in clubs and coteries to which even their members are oblivious. So we, as true knights of the writers guild, append our list, with definitions and characterizations. Please don't feel hurt.

KARLE WILSON BAKER DRAMATIC CLUB—The only thing that keeps these would-be actors off the stage is the manager; otherwise we would have to sit through their absurd and uninteresting presentations. It is indeed refreshing, however, to watch these neo-Barrymores and neo-Bernhardts who are evidently under the pitiably false impression that they are going over big. As for their productions—well, personally, we would rather go to a good funeral any time.

SAWYERS—A jolly, carefree band of “hell-raisers.” We could say more, but brevity, as the botanist says, “Is the nodular urge that recapitulates the Philogenetic Law.”

PYTHAGOREAN CLUB—This is a bunch of math sharks who puzzle their brains (???) with the problem that has baffled the mathematical world for the last half-century; namely, the question as to what tangent grapefruit juice will squirt when you attack the fruit with a spoon. They also pore over such problems as the height of an anthropological parallelopiped whose altitude is inversely proportional to her lateral dimensions and avoirdupois.

THOMAS J. RUSK LITERARY SOCIETY—Defunct.

LUMBERJACKETTES—A rare collection of crimson-lipped, sun-kissed, and wind-blown hair maidens. Their chief function is to inoculate dead matter found on the campus with new life, vigor, and pep. This group ain't so bad.

W. A. A.—A grand and glorious galaxy of feminine genders.

CHORAL CLUB—A group of students who are persuaded to believe that they can sing. Fact is you don't have to be able to sing at all; just hum, grunt, or whistle occasionally. Hallmark says this is the place to “loaf” for an hour and not be reprimanded by Prexy. But this club is under the direction of Miss Pritchett, and she knows her sharps and flats. (Example: PINE TREE HYMN.)

POTENTIAL DEBUNKERS—A mob of cornfed huskies forming a noble but greatly persecuted organization. This is the most potent and impartial organization on the campus; its members are gentlemen and scholars who have such humanitarianism breadth that they can overlook the shortcomings of our disillusioned faculty.

Faculty Questionnaire

We feel that the following questions are as sane as some given to us on True-False exams; too, we believe that we have the same right to ask the faculty members to answer these simple little questions as they have to impose such things on us.

These questions must be answered carefully, truthfully, and humorously.

1. Are you married, single, or otherwise?
2. Do you reside in this city? If so, why don't you move?
3. What "pull" (or bull) did you use to get a position in this institution?
4. Do you expect to hold your position, and if so do you believe that it will affect the future enrollment of the college?
5. How do you "rate" with the students?
6. Do you have halitosis or dandruff?
7. Have you at any time had garments on your back? If so, how did you rid yourself of same?
8. Did your ancestors hang by their tails or by a rope?
9. If you should be elected Dean would you invite students to your home for dinner at least three times a week?
10. Do you know of any asses on the faculty that ought to be on the farm?

NOTE: The last two questions are valued at 100 each. They simply *must* be answered.

LOVIE DOVIES

TICKET OUT 10

And In Conclusion---

The last picture has been sent to the engravers; the last page of copy is now in the hands of the printers. The 1929 STONE FORT is completed. As we gaze at the littered office about us, we are reminded of the many long hours of work and worry we have spent in compiling this volume. The typewriters, the shears, and the telephone are enjoying a much-needed rest, and all is quite and peaceful in Room 125.

At this time, as we look back over our year's work, we can see where the book might be improved in many respects, but lack of time and finances prevents us from changing now. We have endeavored to make this issue of the STONE FORT as representative of the entire student body as possible. In this effort, a few new sections have been added. In The Pine Needle, we have tried to make it of universal interest by mentioning as many of the representative groups and personalities as we could think of. But our acquaintances are limited, we do not know everyone, and we cannot keep in touch with everything that is going on about the Piney Woods. We have asked for help and have gotten very little, so we have taken the material we had and worked with it as best we could.

If anyone feels that he has been personally offended by having a different picture run from the one he selected, by having his name spelled with an "e" instead of an "i," or by some remark made about him, we apologize and assure him that no harm was intended. In the College Life section we have striven to avoid the vulgar and stick to the humorous and clever.

Editing the STONE FORT has not been an easy job. It has already cost us several courses lost through negative hours, and has left us a slim chance of remaining in school after the close of the Spring Term. Certainly none of us have approached the Scholarship Society. But, in spite of all the trials and tribulations we have had to go through with, we feel somewhat of a pride at having been associated with this publication.

Our work is done. The STONE FORT of 1929 is in your hands. Take it, read it, criticise it. We realize our shortcomings and know they are many, but we have done our best. Our success or failure is for you to judge. If our efforts have proven weak, we are sorry; if they have proven, or should prove of some avail, we feel amply repaid.

So long, folks,

—"BILL" TODD.

“East Texas Girls”

“East Texas Boys”

We believe in you and in the training Stephen F. Austin College offers.

Our welfare and success in the furniture business depends on your future development.

Sooner or later you must buy furniture—it's coming and you just as well prepare to meet the issue. This happy event should be the crowning event in your lives.

It is made all the more happier when you come here for your first furniture. For beauty, for quality—for faithful design—for really gorgeous carvings, rich coverings and low prices our complete line surpasses anything shown in Nacogdoches.

We do business in our own building, consequently we sell furniture for less. You will always find a warm welcome here and we are disappointed if you don't visit with us.

Life Is A Hurdle

With each new day we meet new obstacles, sometimes it is slight; sometimes it is great.

These obstacles are hurdles in the race of life. How we meet them depends upon our ability, our training, and often our financial position.

The men and women who live within their means, who lay aside a definite amount each month as a reserve fund, have little difficulty in meeting financial obstacles when they arise.

Prepare for the hurdle of life and begin to save a little while yet young.

THE WORK IS FINISHED

The task is over, but only for today
Tomorrow will bring forth new work

HERE IS the fruit of toil. Into this work is woven the moments of many hours and here is fashioned the labor and hearts of many. It has been work inspired by the hope that because of it some good will come. If this can be, what matters it if time meant for rest has been spent for labor—where is the loss if hours have been taken from the night to lengthen the day?

All service and all achievement, great or small, demands some sacrifice. Work must precede realization, and the love of work is the greater part of compensation. By comparison, no work is perfect. Today's efforts are better than the past, and the toil of Tomorrow will excel the task of the hour—but none have been, nor will ever be, more engaging. This work has indeed been pleasant to those who brought it into being, and it has been our pleasure to work with them.

You can't beat *the pause* that refreshes

There's the crack of a whip in the words of the captain as he urges his team into action: "Wake up! On your toes!" Yet the real thing that keeps up keen effort is not a whip but—the rest period. The moral is that in the routine of work as well as in the dash of play,

you can't beat the pause that refreshes. A refreshing pause requires a refreshing drink. Coca-Cola, delicious and refreshing, stands out above all other beverages. Because people know its natural purity and wholesomeness are safeguarded by the highest standards of manufacture, its popularity grows year by year.
